

1. Record Nr.	UNINA9910812292703321
Autore	Gillioz Christelle
Titolo	Introduction to experimental linguistics // Christelle Gillioz, Sandrine Zufferey
Pubbl/distr/stampa	London, England : , : ISTE, Ltd. Hoboken, New Jersey : , : John Wiley & Sons, Incorporated, , [2020] Â©2020
ISBN	1-119-80170-2 1-119-80171-0 1-119-80169-9
Descrizione fisica	1 online resource (262 pages) : illustrations
Collana	Cognitive science series
Disciplina	410.72
Soggetti	Linguistics - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Experimental Linguistics: General Principles -- Building a Valid and Reliable Experiment -- Studying Linguistic Productions -- Offline Methods for Studying Language Comprehension -- Online Methods for Studying Language Comprehension -- Practical Aspects for Designing an Experiment -- Introduction to Quantitative Data Processing and Analysis.
Sommario/riassunto	The use of experimental methodology in the field of linguistics has boomed in recent decades. However, implementation of such methods does require an understanding and mastery of specific theoretical and methodological principles. Introduction to Experimental Linguistics presents the key concepts of experimental linguistics in an accessible way, addressing, in turn: the application of experimentation in linguistics; the techniques most frequently used for the study of language; the methodological and practical aspects useful for the implementation of an experiment; and an introduction to the analysis of quantitative data derived from experiments. This didactic book combines the elements presented with examples drawn from the various fields of linguistics. It also includes a number of resources available for people who wish to implement an experimental study,

more advanced reading suggestions, and revision questions along with their answer key.
