Disciplina	589.29
Soggetti	Myxomycetes - England - Cumbria
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	The historical counties of Lancashire, Westmorland and Cumberland have a rich diversity of geology, landscape, vegetation and wildlife. This is an account of a group of fascinating organisms, the slime moulds, which are neither slimy nor moulds, and have been shuffled between the animal and plant kingdoms, to neither of which they belong!.
