Sommario/riassunto

First major work to deal solely with the Plaquemine societies.  
Plaquemine, Louisiana, about 10 miles south of Baton Rouge on the  
banks of the Mississippi River, seems an unassuming southern  
community for which to designate an entire culture. Archaeological  
research conducted in the region between 1938 and 1941, however,  
revealed distinctive cultural materials that provided the basis for  
distinguishing a unique cultural manifestation in the Lower Mississippi  
Valley. Plaquemine was first cited in the archaeological literature by  
James Ford and Gordon Willey
