

1. Record Nr.	UNINA9910812387203321
Autore	Magnus Wilhelm <1907-1990.>
Titolo	Noneuclidean tesselations and their groups / / Wilhelm Magnus
Pubbl/distr/stampa	New York ; ; London, : Academic Press, 1974
ISBN	1-281-76658-5 9786611766580 0-08-087377-4
Descrizione fisica	1 online resource (225 p.)
Collana	Pure and applied mathematics ; ; 61
Disciplina	510.8 s511.6 510/.8 s 511/.6 516.9
Soggetti	Tessellations (Mathematics) Geometry, Non-Euclidean
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliography and index.
Nota di contenuto	Front Cover; Noneuclidean Tesselations and Their Groups; Copyright Page; Contents; Preface; Abbreviations and Symbols; CHAPTER I. ELEMENTARY CONCEPTS AND FORMULAS; I.1 The Group G^* of Homographic Substitutions; I.2 Action of G^* on the Closed Complex Plane C ; I.3 Action of G^* on Hyperbolic Three-Space; I.4 Circle Groups as Groups of Motions of Hyperbolic Two-Space; I.5 Notes on Elliptic and Spherical Geometry; I.6 Illustrations. References and Historical Remarks; I.7 Appendix: Hilbert's Axioms of Geometry; CHAPTER II. DISCONTINUOUS GROUPS AND TRIANGLE TESSELATIONS; II.1 Introductory Remarks II.2 Discontinuous Groups and Fundamental Regions II.3 Triangle Groups, Local and Global Relations; II.4 Euclidean, Spherical, and Elliptic Triangle Groups; II.5 Hyperbolic Triangle Groups; II.6 Some Subgroups of Hyperbolic Triangle Groups; II.7 General Theorems. A Survey and References; CHAPTER III. NUMBER THEORETICAL METHODS; III.1 The Modular Group; III.2 Subgroups and Quotient Groups of the Modular Group; III.3 Groups of Units of Ternary Quadratic and Binary Hermitian Forms; CHAPTER IV. MISCELLANY; IV.1 Examples of Discontinuous Nonfuchsian Groups; IV.2 Fricke Characters

CHAPTER V. GROUPS THAT ARE DISCONTINUOUS IN HYPERBOLIC
THREE-SPACE.V.1 Linear Groups over Imaginary Quadratic Number
Fields; V.2 Some Geometric Contructions; Figures; References; Index

Sommario/riassunto

Noneuclidean tesselations and their groups
