

1. Record Nr.	UNINA9910812526803321
Autore	Claes Jeroen
Titolo	Cognitive, social, and individual constraints on linguistic variation : a case study of presentational 'haber' pluralization in Caribbean Spanish / / Jeroen Claes
Pubbl/distr/stampa	Berlin, Germany ; ; Boston, [Massachusetts] : , : De Gruyter Mouton, , 2016 ©2016
ISBN	3-11-052170-9
Descrizione fisica	1 online resource (262 pages) : illustrations
Collana	Cognitive Linguistics Research, , 1861-4132 ; ; Volume 60
Disciplina	465
Soggetti	Spanish language - Variation - Caribbean Area Spanish language - Morphosyntax Cognitive grammar - Social aspects Caribbean Area
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Acknowledgements -- Contents -- List of figures -- List of tables -- Abbreviations and other conventions -- Chapter 1: Introduction -- Chapter 2: Presentational haber pluralization -- Chapter 3: Cognitive Construction Grammar and language variation -- Chapter 4: Research questions and hypotheses -- Chapter 5: Methodology -- Chapter 6: Semantic and syntactic properties of presentational haber -- Chapter 7: Cognitive constraints on presentational haber pluralization -- Chapter 8: Social constraints on presentational haber pluralization -- Chapter 9: Individual constraints on presentational haber pluralization -- Chapter 10: Cognitive, social, and individual constraints on presentational haber pluralization -- References -- Index -- Appendix A: Story-reading task -- Appendix B: Questionnaire-reading task
Sommario/riassunto	The present volume tries to answer the question: What constrains morphosyntactic variation? By analyzing the variable agreement of presentational haber ('there to be') in Caribbean Spanish with advanced statistical tools and theoretical constructs of Cognitive Sociolinguistics,

psycholinguistics, and variationist sociolinguistics, it proposes an innovative theoretical model of the constraints that govern morphosyntactic variation.
