Sommario/riassunto

In recent years, the study of creativity has shifted from analysis of culture as an end in itself to one of economic enhancement, and its capability to generate wealth and promote economic development. Increasingly, European cities and regions are using the arts to fuel wellbeing and reinvigorate economies after the comparative demise of more traditional industry and manufacturing. A growing literature is starting to highlight the innovation capacity of cultural and creative industries (CCIs) as they intersect the innovation processes of other manufacturing and services sectors with an inno
