Thoughts about Mario Savio -- Mario Savio and the Politics of Authenticity -- Remembering Mario -- Mario, Personal and Political -- Elegy for Mario Savio -- On Mario Savio -- Mario Savio: Avatar of Free Speech -- Selected Bibliography -- List of Contributors -- Index

Sommario/riassunto

This is the authoritative and long-awaited volume on Berkeley's celebrated Free Speech Movement (FSM) of 1964. Drawing from the experiences of many movement veterans, this collection of scholarly articles and personal memoirs illuminates in fresh ways one of the most important events in the recent history of American higher education. The contributors-whose perspectives range from that of FSM leader Mario Savio to University of California president Clark Kerr--shed new light on such issues as the origins of the FSM in the civil rights movement, the political tensions within the FSM, the day-to-day dynamics of the protest movement, the role of the Berkeley faculty and its various factions, the 1965 trial of the arrested students, and the virtually unknown "little Free Speech Movement of 1966."

Nota di contenuto	The Auswartiges Amt of the German Reich, 1871-1945 -- The foreign affairs question in occupied Germany, 1945-49 -- The return of the German diplomats -- Foreign policy without a foreign office, 1949-51 -- The foreign office's childhood illnesses, 1949-55 -- Personnel policy, 1949-55 -- The leadership structure in the Auswartiges Amt, 1951-55 -- The career diplomats and Adenauer's foreign policy.
Sommario/riassunto	The creation of the Foreign Office under Adenauer tells us much about the possibilities and limits of professional diplomacy in the mid-twentieth century. It also demonstrates three themes central to the early history of the Federal Republic: the integration of the new state into the international community, the cooptation of German elites and traditions by the new political system, and the creation of government in a state under foreign occupation. In this important study, Thomas Maulucci argues that, despite an improvised start and a considerable continuity of practice and personnel with pre-1945 Germany, the changed international and domestic situation proved decisive in creating a ministry that could help to implement new directions in German foreign policy. In addition, Maulucci explores the interactions between international, political, and social history, contributing to a

literature that bridges the gap between the pre- and post-World War Two eras that characterized previous writing on German history. Based on extensive research in German, American, British, and French archives, Adenauer's Foreign Office is the only English-language book of its kind. The troubling question of personnel continuity in the German diplomatic service is of considerable importance today, especially because of the Foreign Office's previous attempts to portray its past in the best possible light. Of interest to scholars and students of German history and politics as well as non-specialists, this book provides new insights into post-war diplomacy, the sociology of German elites, and the problems involved in creating a new government after losing a major war.
