

1. Record Nr.	UNINA9910812712303321
Autore	Bandello Francesco
Titolo	OCT Angiography // by: Chow, David R., Chaves de Oliveira, Paulo Ricardo
Pubbl/distr/stampa	New York, New York : , : Thieme, , 2018 ©2018
ISBN	1-63853-452-7 1-62623-474-4
Descrizione fisica	1 online resource (176 pages) : color illustrations
Disciplina	617.735
Soggetti	Retina - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Optical coherence tomography angiography : understanding the basics / David R. Chow -- Optical coherence tomography angiography artifacts / Paulo Ricardo Chaves de Oliveira, Keyvan Koushan, and David R. Chow -- Current optical coherence tomography angiography clinical systems / Sumit Sharma and Peter K. Kaiser -- Optical coherence tomography angiography and neovascular age-related macular degeneration / Nicholas A. Iafe, Nopasak Phasukkijwatana, and David Sarraf -- Optical coherence tomography angiography and fibrotic choroidal neovascularization in age-related macular degeneration / Eric Souied and Alexandra Miere -- Nonneovascular age-related macular degeneration / Ricardo Noguera Louzada, Mark Lane, and Nadia K. Waheed -- Optical coherence tomography angiography and diabetic retinopathy / Andre Romano -- Optical coherence tomography angiography and arterial occlusions / Abtin Shahlaee, Carl D. Regillo, and Allen C. Ho -- Optical coherence tomography angiography in retinal venous occlusions / Mostafa Hanout, Paulo Ricardo Chaves de Oliveira, and Alan R. Berger -- Optical coherence tomography angiography and central serous chorioretinopathy / Wasim A. Samara, Carl D. Regillo, and Allen C. Ho -- Optical coherence tomography angiography in macular telangiectasia type 2 / Alain Gaudric and Valerie Krivosic -- Optical coherence tomography angiography and adult-onset foveomacular vitelliform dystrophy / Giuseppe Querques,

Adriano Carnevali, Federico Corvi, Lea Querques, Eric Souied, and
Francesco Bandello -- Optical coherence tomography angiography and
high myopia / Taku Wakabayashi and Yasushi Ikuno -- Optical
coherence tomography angiography and uveitis / Eduardo A. Novais,
Andre Romano, and Rubens Belfort Jr. -- Optical coherence
tomography angiography findings in ocular oncology and radiation
retinopathy / Meghna V. Motiani, Colin A. McCannel, and Tara A.
McCannel -- Optical coherence tomography angiography and glaucoma
Gabor Hollo -- Optical coherence tomography angiography and
anterior segment vasculature / Christophe Baudouin, Stephanie Hayek,
and Adil El Maftouhi -- The future of optical coherence tomography
angiography / Emily D. Cole, Eric M. Moul, Eduardo A. Novais, James G.
Fujimoto and Nadia K. Waheed -- Optical coherence tomography
angiography rounds / David R. Chow.
