Sommario/riassunto	Cancer is more than a biological disease. Cultural factors are involved at every stage in the journey through cancer, from prevention to palliative care. Based upon recent studies from the United Kingdom, Europe and the United States, Culture and Cancer Care examines a number of cultural themes in relation to cancer, including:. The disparity of rates of cancer among different ethnic groups. Culture and screening. Breaking bad news and communication. Cultural variations in emotional responses to cancer. Cultural variability in cancer treatments and the influence on prognosis. Palliative care a
