became making a decision : the Cold War rise of decision theory and
the invention of rational choice / Philip Mirowski -- Computable
rationality, nuts, and the nuclear Leviathan / S.M. Amadae -- The
unlikely revolutionaries : decision sciences in the Soviet government /
Egle Rindzeviciute -- Prediction and social choice : Daniel Bell and
future research / Jenny Andersson -- Predictive algorithms and criminal
sentencing / Angele Christin -- The myth of the decision / Daniel
Bessner and Nicolas Guilhot.

Sommario/riassunto

"In the decades following World War II, the science of decision-making moved from the periphery to the center of transatlantic political theory, as part of the broader mobilization of social science during the Cold War. The Decisionist Imagination explores how "decisionism" emerged from its origins in prewar political science to become an object of intense scientific inquiry in the new intellectual and institutional landscape of the postwar era. By bringing together scholars from a wide variety of disciplines, this volume illuminates the connection between early twentieth-century conservative political theory and techno-scientific aspects of modern governance--helping to explain, in short, how we arrived at where we are today"--

3. Record Nr.	UNINA9910814929303321
Titolo	The archaeology of French and Indian War frontier forts // edited by Lawrence E. Babits and Stephanie Gandulla
