

1. Record Nr.	UNINA9910813040403321
Autore	Har Jason
Titolo	Advanced computational dynamics of particles, materials and structures : [a unified approach] // Jason Har and Kumar K. Tamma
Pubbl/distr/stampa	West Sussex [England], : John Wiley & Sons, 2012
ISBN	9786613688859 9781119966937 1119966930 9781119965909 111996590X 9781119965893 1119965896 9781280778469 1280778466 9781119966920 1119966922
Edizione	[2nd ed.]
Descrizione fisica	xxiv, 686 p. : ill
Altri autori (Persone)	TammaKumar K
Disciplina	531/.163
Soggetti	Dynamics Dynamics - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. N-body dynamical systems -- pt. 2. Continuous-body dynamical systems -- pt. 3. The time dimension.
Sommario/riassunto	"Advanced Computational Dynamics of Particles, Materials, and Structures: A Unified Approach breaks new ground with its in-depth, detailed coverage of modern computational mechanics in particle and continuum dynamics. Kumar Tamma provides a unique blend of classical and innovative theoretical and computational approaches that cover both particle dynamics and flexible continuum structural dynamics applications. He covers both traditional methods and new developments & perspectives in both time and space discretization, encompassing classical Newtonian, Lagrangian, and Hamiltonian

mechanics as well as new and alternate contemporary approaches and their equivalences to address various problems in engineering sciences and physics. The completeness and depth of coverage makes Advanced Computational Dynamics of Particles, Materials, and Structures an invaluable reference for both engineers and researchers working in the field of computational mechanics"--
