Record Nr. UNINA9910813068803321 All things morphology: its independence and its interfaces / edited by **Titolo** Sedigheh Moradi [and three others] Pubbl/distr/stampa Amsterdam; Philadelphia,: John Benjamins, [2021] ©2021 Descrizione fisica 1 online resource (449 pages) Collana Current Issues in Linguistic Theory;; v.353 Disciplina 415/.92 Soggetti Grammar, Comparative and general - Morphology Essays. Festschriften Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Nota di bibliografia Includes bibliographical references and index. Nota di contenuto 2.1 Blocking and extended exponence. Sommario/riassunto "This book attempts to provide a view of where the field of morphology has been and where it is today within a particular theoretical framework, gathering up new and representative work in morphology by both eminent and emerging scholars, and touching on a very wide range of topics, approaches, and theoretical points of view. These seemingly disparate articles have a common touchstone in their focus on a word-based, paradigmatic approach to morphology. The chapters in this book elaborate on these basic themes, from the further exploration of paradigms, to studies involving words, stems, and affixes, to examinations of competition, inheritance, and defaults, to investigations of morphomes, to ways that morphology interacts with other parts of the language from phonology to sociolinguistics and applied linguistics. The editors and contributors dedicate this volume to Prof. Mark Aronoff for his profound influence on the field"--
