Sommario/riassunto	In this important new book, Christopher Pollitt, one of the leading researchers in public policy and management, argues that we are guilty of neglecting a fundamental dimension of both the practice and study of contemporary public management: that of time. Pollitt traces the character of, and the reasons for, this neglect in his wide-ranging study. - ;In this important new book, Christopher Pollitt, one of the leading researchers in public policy and management, argues that we are guilty of neglecting a fundamental dimension of both the practice and study of contemporary public policymaking an
