### Sommario/riassunto

Countering impressions of Moses reinforced by Sigmund Freud in his epoch-making Moses and Monotheism, this concise, engaging work begins with the perception that the story of Moses is at once the most nationalist and the most multicultural of all foundation narratives. Weaving together various texts-biblical passages, philosophy, poems, novels, opera, and movies-Barbara Johnson explores how the story of Moses has been appropriated, reimagined, and transmitted across cultures and historical moments. But she finds that already in the Bible, the story of Moses is a multicultural story, the story of someone who functions well in a world to which he, unbeknownst to the casual observer, does not belong. Using the Moses story as a lens through which to view questions at the heart of contemporary literary, philosophical, and ethical debates, Johnson shows how, through a close analysis of this figure's recurrence through time, we might understand something of the paradoxes, if not the impasses of contemporary multiculturalism.

| Sommario/riassunto      | In the twentieth century, illiteracy and its elimination were political issues important enough to figure in the fall of governments (as in Brazil in 1964), the building of nations (in newly independent African countries in the 1970's), and the construction of a revolutionary order (Nicaragua in 1980). This political biography of Paulo Freire (1921-97), who played a crucial role in shaping international literacy education, also presents a thoughtful examination of the volatile politics of literacy during the Cold War.
