

1. Record Nr.	UNINA9910813146603321
Titolo	Infertility and assisted reproduction // edited by Botros R.M.B. Rizk ... [et al.]
Pubbl/distr/stampa	Cambridge ; ; New York, : Cambridge University Press, 2008
ISBN	1-107-19809-7 1-281-94479-3 9786611944797 0-511-45616-6 0-511-45747-2 0-511-45443-0 0-511-45345-0 0-511-54728-5 0-511-45546-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xxiii, 783 pages) : digital, PDF file(s)
Altri autori (Persone)	RizkBotros
Disciplina	616.6/92
Soggetti	Infertility Human reproductive technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	COVER; HALF-TITLE; TITLE; COPYRIGHT; DEDICATION; CONTENTS; CONTRIBUTORS; FOREWORD; PREFACE; INTRODUCTION; PART I PHYSIOLOGY OF REPRODUCTION; PART II INFERTILITY: EVALUATION AND MANAGEMENT; PART III ASSISTED REPRODUCTION; PART IV ETHICAL DILEMMAS IN FERTILITY AND ASSISTED REPRODUCTION; INDEX
Sommario/riassunto	Assisted reproductive technology (ART) is available to two-thirds of the world's population, and world-class experts, representing research from 18 different countries, have contributed to this groundbreaking textbook, detailing the techniques and philosophies behind medical procedures of infertility and assisted reproduction. This is one of the most rapidly changing and hotly debated fields in medicine. Different countries have different restrictions on the research techniques that can be applied to this field, and, therefore, experts from around the

world bring varied and unique authorities to different subjects in reproductive technology. Encompassing the latest research into the physiology of reproduction, infertility evaluation and treatment, and assisted reproduction, it concludes with perspectives on the ethical dilemmas faced by clinicians and professionals. This book will be the definitive resource for those working in the areas of reproductive medicine world wide.
