

1. Record Nr.	UNINA9910813148003321
Titolo	Generalization of knowledge : multidisciplinary perspectives // Marie T. Banich and Donna Caccamise, editors
Pubbl/distr/stampa	New York : , : Psychology Press, , 2010
ISBN	1-136-94545-8 1-136-94546-6 1-283-03732-7 9786613037329 0-203-84803-9
Descrizione fisica	1 online resource (380 p.)
Altri autori (Persone)	BanichMarie T. <1957-> CaccamiseDonna
Disciplina	370.15/2
Soggetti	Cognitive learning
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Cognitive neuroscience approaches to generalization -- section 2. Developmental perspectives on generalization -- section 3. Representations that support generalization -- section 4. Educational and training approaches to generalization -- section 5. Technological approaches to generalization.
Sommario/riassunto	While the notion of generalization fits prominently into cognitive theories of learning, there is surprisingly little research literature that takes an overview of the issue from a broad multifaceted perspective. This volume remedies this by taking a multidisciplinary perspective on generalization of knowledge from several fields associated with Cognitive Science, including Cognitive Neuroscience, Computer Science, Education, Linguistics, Developmental Science, and Speech, Language and Hearing Sciences. Researchers from each perspective explain how their field defines generali
