This highly original account combines exemplary empirical research with the judicious application of diverse methods to explore the far-reaching ramifications of 'a whole empire walking.'" -- Vucinich Prize citation "An important contribution not only to modern Russian history but also to an ongoing repositioning of Russia in broader European and world historical processes.... elegantly written... highly innovative." -- Europe-Asia Studies Drawing on previously unused archival material in Russia, Latvia, and Armenia and on insights from social and critical theory, Peter Gatrell considers the origins of displacement and its political implications and provides a close analysis of humanitarian initiatives and the relationships between refugees and the communities

in which they settled.
