Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Presents analysis of ten documentary films about nuclear issues made since the end of the Cold War. Argues that public fascination with radioactive spaces has been used reflexively to present contemporary difficult themes such as Chernobyl, Fukushima, closure of nuclear power stations, and the siting of geological waste repositories. 12 b/w illus.
