

1. Record Nr.	UNINA9910813311403321
Titolo	Chronic heart failure // edited by Mark Kearney
Pubbl/distr/stampa	Oxford, : Oxford University Press, 2008
ISBN	0-19-174005-5 0-19-960717-6 1-283-58215-5 9786613894601 0-19-156217-3
Edizione	[1st ed.]
Descrizione fisica	1 online resource (145 p.)
Collana	Oxford cardiology library
Altri autori (Persone)	KearneyMark
Disciplina	616.1/29
Soggetti	Heart failure Internal medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; Contributors; Abbreviations; 1 Aetiology and epidemiology of chronic heart failure; 2 Pathophysiology of systolic heart failure; 3 Investigation of patients with suspected chronic heart failure; 4 Assessment of prognosis in patients with chronic heart failure; 5 Blockade of the renin-angiotensin-aldosterone system; 6 Beta-blockers and chronic heart failure; 7 Device therapy; 8 Inherited cardiomyopathies; 9 Chronic heart failure with preserved ejection fraction; 10 Comorbidities associated with chronic heart failure; 11 Heart failure in the elderly; 12 Advanced heart failure IndexA; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W
Sommario/riassunto	Between 1-2% of the adult population have chronic heart failure, with 6-10% of people over the age of 65 years suffering from the disorder. While the age-adjusted incidence of chronic heart failure has remained stable over the last 20 years, its prevalence has increased with over one million cases in the United Kingdom alone. This practical pocketbook provides a guide for healthcare professionals - doctors, nurses and technical staff - who manage patients with chronic heart failure. Each chapter is written by a leader in that particular area of the treatment or investigation of chronic heart fa
