

1. Record Nr.	UNINA9910813355803321
Autore	Smith Moyra
Titolo	Mental retardation and developmental delay : genetic and epigenetic factors // Moyra Smith
Pubbl/distr/stampa	New York, N.Y., : Oxford University Press, 2006
ISBN	0-19-770759-9 1-280-84391-8 0-19-803885-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (338 p.)
Collana	Oxford scholarship online
Altri autori (Persone)	ArfinStuart M Lottlra T
Disciplina	616.8588042
Soggetti	Intellectual disability - Etiology Intellectual disability - Genetic aspects Developmental disabilities - Etiology Developmental disabilities - Genetic aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Formerly CIP. Previously issued in print: 2005.
Nota di bibliografia	Includes bibliographical references (p. 247-300) and index.
Nota di contenuto	Science, society, and mental retardation: a history -- Neurogenesis, neuronal migration, maturation, and function: insights into learning and memory -- Structural brain anomalies and neural tube defects -- Mental retardation associated with dysmorphology, growth retardation, or overgrowth -- Mental retardation associated with other neurological defects -- Mental retardation that develops after a period of normal cognition -- Non-syndromic mental retardation, autism, and language deficits -- Genomics, functional genomics, and epigenetics -- Establishing a diagnosis and determining etiology -- The value of genetic diagnosis: applying knowledge about etiology to prevention and treatment.
Sommario/riassunto	Moyra Smith makes readily available current knowledge on the subject of mental retardation and developmental delay and applies it to clinical medicine providing information essential to neurologists, geneticists, physicians and paediatricians as they search for the causes of mental handicap.
