

1. Record Nr.	UNINA9910813406803321
Titolo	Mastery of endoscopic and laparoscopic surgery // edited by Lee L. Swanstrom, MD, Chief Innovation Officer (CIO) and Director of Innovations School (I-SIP), IHU-Strasbourg, Strasbourg, France, Interventional Endoscopy and Foregut Surgery, The Oregon Clinic, Professor of Surgery (Clinical), Oregon Health and Science University, Portland, Oregon, Nathaniel J. Soper, MD, Loyal and Edith Davis Professor and Chair, Department of Surgery, Northwestern University Feinberg School of Medicine, Chicago, Illinois ; in conjunction with Michael E. Leonard, Medical Illustrator, Clement, California, Steven Leeds, MD, Video Link Editor, Portland Providence Cancer Center and the Oregon Clinic, Portland, Oregon
Pubbl/distr/stampa	Philadelphia : , : Wolters Kluwer Health / Lippincott Williams & Wilkins, , [2014] 2014
ISBN	1-4698-3120-1 1-4698-8025-3
Edizione	[Fourth edition.]
Descrizione fisica	1 online resource (xv, 704 pages) : illustrations (chiefly color)
Collana	Gale eBooks
Disciplina	617/.05
Soggetti	Endoscopic surgery Laparoscopic surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Mastery of Endoscopic and Laparoscopic Surgery""; ""Contents""; ""I Surgical Education: Mastering Minimally Invasive Approaches""; ""Teaching and Learning Laparoscopic Procedures""; ""Teaching and Learning Advanced Flexible Endoscopy""; ""II Tools of the Trade""; ""New Technology in Flexible Endoscopy""; ""New Laparoscopic Instrumentation: Single Port, Minilap, and Beyond""; ""Imaging Systems in Minimally Invasive Surgery""; ""Surgical Robotics""; ""III Minimally Invasive Approaches to the Foregut""; ""A Benign Disorders of the Esophagus and Stomach"" ""Anatomic and Physiologic Testing of Esophageal Function"" Endoluminal Therapy of GERD: Current Status""; ""Laparoscopic Nissen

Fundoplication"; "Laparoscopic Partial Fundoplication";
"Laparoscopic Antireflux Surgery: Esophageal Lengthening
Procedures"; "Laparoscopic Antireflux Surgery: Reoperations at the
Esophageal Hiatus"; "Laparoscopic Repair of Paraesophageal Hernias";
"Esophageal Achalasia"; "Per-oral Endoscopic Myotomy (POEM) for
Achalasia and other Motility Disorders"; "Other Esophageal Motility
Disorders and Diverticula"; "Surgical Treatments for Gastroparesis"
"B Premalignant and Malignant Diseases of the Foregut""Endoscopic
and Laparoscopic Evaluation of Foregut Neoplasia"; "Endoscopic
Therapies for Barrett's Esophagus"; "Laparoscopic Transhiatal
Esophagectomy"; "A Minimally Invasive Ivor Lewis Method for
Resection of Esophageal Cancer with Curative Intent"; "Endoscopic
Palliation of Unresectable Cancer of the Esophagus"; "Endoscopic
Resection of Premalignant and Malignant Foregut Disease"; "Resection
of Nonadenomatous Gastric Tumors"; "Laparoscopic Resection for
Gastric Adenocarcinoma"; "C Bariatric and Metabolic Surgery"
"Laparoscopic Adjustable Gastric Band""Laparoscopic Roux-en-Y
Gastric Bypass"; "Laparoscopic Duodenal Switch and Sleeve
Gastrectomy"; "Laparoscopic and Single-Incision Sleeve
Gastrectomy"; "Endolumenal Treatments for Morbid Obesity";
"Metabolic Surgery for Diabetes"; "IV Hepato-biliary and Pancreatic
Surgery"; "Diseases of the Liver and Biliary Tract: Endoscopy of Bile
and Pancreatic Ducts"; "Laparoscopic Cholecystectomy"; "Surgery of
the Extrahepatic Bile Ducts"; "Biliary and Vasculobiliary Injuries";
"Laparoscopic and Image-Guided Treatment of Liver Tumors"
"Liver Resection""Endoscopic Techniques for Evaluating, Staging, and
Treating Pancreatic, Ampullary, and Periampullary Tumors";
"Endoscopic and Laparoscopic Management of Pseudocysts and
Pancreatitis"; "Minimally Invasive Pancreatic Resection"; "V Minimally
Invasive Endocrine Surgery"; "Laparoscopic Adrenalectomy"; "Less
Invasive Approaches to the Thyroid and Parathyroid Glands"; "VI
Endoscopic Surgery of the Small and Large Bowel"; "Endoscopic
Diagnosis of Small Intestinal Diseases"; "Laparoscopic Treatment of
Disorders of the Small Bowel"
"Flexible Endoscopy of the Lower Gastrointestinal Tract"

Sommario/riassunto

"If there is a theme to this edition, it probably lies in the fact that most of the laparoscopic operations described are well-matured and backed with many years of outcomes data to support their "gold standard" status. This is an increasingly important component of any surgical approach in this era of cost containment and effectiveness measurements. We hope that the evidence listed in this edition will provide a ready reference for surgeons who need to defend their choice of a minimally invasive approach for their patients. A second theme to note is the continued emphasis on the utility and importance of flexible endoscopy as a surgical tool. As more and more operations, even laparoscopic ones, become doable by the flexible endoscope, it is increasingly apparent that the surgeon who relinquishes their right to perform endoscopy will face an increasingly narrow spectrum of practice. Mastery of Laparoscopic and Endoscopic Surgery has always reflected this philosophy, in this edition more than ever, and we are happy to see that the current political efforts by the American Board of Surgery and other leadership groups in surgery validate this emphasis"
