Bykova -- Sameness and Otherness in the Free Principle of Philosophy: Fichte's Wissenschaftslehre in Comparison to Hegel's Science of Logic / Faustino Fabbianelli -- Kant's Conception of Cosmological Freedom and its Metaphysical Legacy / Christian Krijnen -- Hegel's Concept of Recognition as the Solution to Kant's Third Antinomy / Arthur Kok -- Does Spontaneity have to be Naturalized? Freedom as Spontaneity—Today and in Kant / Jakub Kloc-Konkoowicz -- Back Matter -- Index.
Sommario/riassunto	Freedom is one of the main issues of modern philosophy and Kant's philosophy of freedom a major source for comprehending it. Whereas in contemporary debates Kant's concept of practical freedom is addressed frequently, the cosmological foundation of it is much less

discussed and even mostly taken for granted. In *Metaphysics of Freedom?*, by contrast, Kant's concept of cosmological freedom is scrutinized both in a historical and a systematic perspective. As a result, a deeper and broader understanding of Kant's conception of freedom, its presuppositions, and problems emerges.
