Greif -- Yearning to be recognized : from concept building to proposal development to data gathering and analysis / Anthony R. Ramsey -- Catastrophic cultural immersion : from concept building to proposal development to data gathering and analysis / Lisa Marie Wands.

## Sommario/riassunto

Praise for the Second Edition: "Smith and Liehr's exposition on nursing theory enhances nursing science and clinical practice with 12 middle range nursing theories. The discussion format of each chapter helps the reader understand the theories and the comparisons among them. This user-friendly reference is a must-have for students as well as academic and clinical nurse scholars." --AJN Book of the Year Award review. Middle range theory has become a vital staple of nursing education and application to research. These theories, which lie between the working hypotheses derived from day-to-day
