1.
Record Nr.	UNINA9910813579203321
Autore	Roark Brian
Titolo	Computational approaches to morphology and syntax / / Brian Roark and Richard Sproat
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, 2007
ISBN	1-383-04179-2 9786611164607 1-281-16460-7 0-19-153451-X 1-4356-1007-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (337 p.)
Collana	Oxford surveys in syntax and morphology
Altri autori (Persone)	SproatRichard William
Disciplina	410.285
Soggetti	Computational linguistics Grammar, Comparative and general - Morphology - Data processing Grammar, Comparative and general - Syntax - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Formerly CIP. Previously issued in print: 2007.
Nota di bibliografia	Includes bibliographical references (p. [285]-305) and indexes.
Nota di contenuto	Contents; General preface; Preface; List of Figures; List of Tables; Abbreviations; 1. Introduction and Preliminaries; PART I. COMPUTATIONAL APPROACHES TO MORPHOLOGY; PART II. COMPUTATIONAL APPROACHES TO SYNTAX; References; Name Index; Language Index; Index
Sommario/riassunto	The authors provide a critical and practical guide to computational techniques for handling morphological and syntactic phenomena, showing how these techniques have been used and modified in practice.
