

1. Record Nr.	UNINA9910813606003321
Autore	Ito Atsuyo
Titolo	Legal aspects of satellite remote sensing [[electronic resource] /] / by Atsuyo Ito
Pubbl/distr/stampa	Leiden ; ; Boston [Mass.], : M. Nijhoff Pub., 2011
ISBN	1-283-12014-3 9786613120144 90-04-21488-7
Descrizione fisica	1 online resource (370 p.)
Collana	Studies in space law, , 1871-7659 ; ; v. 5
Disciplina	344/.095
Soggetti	Artificial satellites in remote sensing - Law and legislation Liability (Law) Law - Data processing Remote-sensing images - Law and legislation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Clarification of the current regime -- pt. 2. Improvements to the current framework.
Sommario/riassunto	The applications and uses of satellite remote sensing have burgeoned during the last decade and the associated legal aspects of satellite remote sensing have become increasingly important, however, the legal regime in this area is surprisingly inadequate. The research undertaken for this book provides, for the first time in one place, an examination of the existing regime and highlights shortcomings with regard to liability, data policy and data integrity before proposing improvements needed for the full beneficial exploitation of remotely sensed data, particularly in support of disaster management and the protection of the environment.
