

1. Record Nr.	UNINA9910813649103321
Autore	Kahraman Cengiz
Titolo	Uncertainty Modelling in Information Management and Decision Making [[electronic resource]]
Pubbl/distr/stampa	Bradford, : Emerald Group Publishing Limited, 2014
ISBN	1-78350-648-2
Descrizione fisica	1 online resource (89 p.)
Collana	Journal of Enterprise Information Management: Volume 27, Issue 3
Altri autori (Persone)	OztaysiBasar KabakOzgur Sarilrem IraniZahir
Disciplina	658.4/033
Soggetti	Artificial intelligence Human-machine systems Multiple criteria decision making
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Cover; Editorial review board; Editorial; A fuzzy integrated approach for project selection; Analyzing relationship between ERP utilization and lean manufacturing maturity of Turkish SMEs; An intelligent group decision-support system and its application for project performance evaluation; A fuzzy analytic hierarchy process methodology for the supplier selection problem; Providing an effective group-buying aggregation service:a data-driven approach; A fuzzy expert system design for forecasting return quantity inreverse logistics network
Sommario/riassunto	This ebook incorporates excellent 'quality' submissions that focus on providing a mixture of theoretical and practical contributions. The research work presented in these papers highlights that social media are playing a rapidly expanding role in both companies and in teaching and learning. The aim of this ebook is to provide a broad understanding of the significance that uncertainty modelling, in the context of managing information resources and decision-making process, plays. The techniques for uncertainty modelling and analysis in engineering presents appropriate analytical and useful tools
