Nota di bibliografia Includes bibliographical references and index. Nota di contenuto pt. 1. Introduction to data integration -- pt. 2. Batch data integration -- pt. 3. Real time data integration -- pt. 4. Big, cloud, virtual data. Sommario/riassunto Managing Data in Motion describes techniques that have been developed for significantly reducing the complexity of managing system interfaces and enabling scalable architectures. Author April Reeve brings over two decades of experience to present a vendorneutral approach to moving data between computing environments and systems. Readers will learn the techniques, technologies, and best practices for managing the passage of data between computer systems and integrating disparate data together in an enterprise environment. The average enterprise's computing environment is compr
