| Nota di bibliografia    | Includes bibliographical references and index.   |
| Nota di contenuto       | The basics -- A bit more detail -- Essential elaborations I -- Essential elaborations II : conflict disorders -- How to do an initial interview using psychoanalytic concepts -- Deficits in basic mental functions : the details with the devil in them -- Deficits in control and delay mechanisms : the nitty-gritty of weakness -- Object relations deficits and self-esteem problems : distance when you least expect it -- Superego deficits -- Libidinal and aggressive drives : sex and violence in everyday life and in pathology -- Affects : your feelings about everything -- Defenses : how the mind shields itself -- Compromise formations and psychopathology -- Adult psychiatric evaluation : the long form. |
| Sommario/riassunto      | Dr. Jerome Blackman, author of 101 Defenses: How the Mind Shields Itself, has once again crafted an extraordinarily user-friendly book that demonstrates to all readers, from trainees to advanced analysts, the process of diagnosing mental disturbance. Get the Diagnosis Right provides a systematic method for accurately determining whether a person suffering with mental problems needs medication,   |

supportive/cognitive, dynamic, and/or psychoanalytic treatment.  
Amalgamating the most useful ideas from general psychiatry, cognitive  
psychology, and modern psychoan
