Gulf War I; Kuwait; Iraqi Unconventional Weapons before 1990; Nuclear Threat Justification for Countering Iraq; Options for Keeping Iraq Disarmed; Endnotes; 17. Sanctions and Inspections; What Iraq Actually Had in 1990; Sanctions and Inspections: 1995-1998; End of the First Round of Inspections Impact on Palestine and Iran

Sommario/riassunto

Will international wars where energy resources play a central role continue to hold sway over life and death for industrialized nations, or is this a transient phase in the evolution of industrial societies? This book answers this question by tracing the history of energy and conflict from antiquity, through the epic hot and cold wars of the twentieth century, to expected outcome of the war in Iraq. It points the way to the end of wars over control of fossil fuels, and demonstrates why these may be the last major international wars over other resources as well. This book is a must-read for
