Sommario/riassunto

Todd Saunders (1969) is one of the most important young contemporary Canadian architects working internationally. His architecture, simple yet powerful, incorporates elements of his country's architectural identity - including the use of wood and carefully picked Modernist influences - bringing it at the same time into the 21st century with excellent execution, carefully chosen materials and a hands-on approach. Saunders (he lives and works in Bergen, Norway) has successfully executed work in both Canada, Norway, and Finland, creating architecture with a strong sense of northern identity, an individual approach that is informed by the strongness of natural landscape. The most important projects: Aurland Lookout, Long Studio, Fogo Island, Tower Studio, Fogo Island, Squish Studio, Fogo Island and Villa G. The first reference monograph on a remarkable young architect working in Scandinavia and Canada. The monograph provides interesting unpublished documents, curated by Jonathan Bell (Architecture Editor, Wallpaper* magazine) and Ellie Stathaki (Deputy Architecture Editor, Wallpaper* magazine) as well as three interviews by Olaf Gipser, Zita Cobb, and Brian MacKay-Lyons. The artwork of the book is by the international renowned graphic designer Henrik Nygren.
