Sommario/riassunto	The Indian Ocean Tsunami, which devastated 70 percent of Sri Lanka's coastline and killed an estimated 35,000 people, was remarkable both for the magnitude of the disaster and for the unprecedented scale of

the relief and recovery operations mounted by national and international agencies. The reconstruction process was soon hampered by political patronage, by the competing efforts of hundreds of foreign humanitarian organizations, and by the ongoing civil war. The book is framed within this larger political and social context, offering descriptions and comparisons between two r
