Nota di contenuto	Introduction -- Blueprint for a green economy in the 21st century -- Sustainable development -- Progress in valuing the environment -- Accounting for the environment and sustainability -- Progress in prices and incentives for environmental improvement -- Towards a green global economy -- Conclusion.
Sommario/riassunto	Published in 1989, Blueprint for a Green Economy presented, for the first time, practical policy measures for 'greening' modern economies and putting them on a path to sustainable development. This new book, written by two of the Blueprint for a Green Economy authors, revisits and updates its main messages by asking, first, what has been achieved in the past twenty years, and second, what more needs to be done to generate a truly 'green economy' in the twenty-first century? Blueprint for a Green Economy had one over-arching theme. Making economies more sust
