Sommario/riassunto	Popular music grew out of ragtime, vaudeville and the blues to become global mass entertainment. Women like Ma Rainey and Bessie Smith were the original pop divas, yet eighty years after they blazed a trail, have their successors achieved the recognition and affirmation they

deserve? Or has the only way to success been to slot into saleable images of the cute baby or sexy chanteuse? This is the story of women as creators and innovators, aiming to provide a history of women in rock, pop and soul - on stage, on camera and working behind the scenes in a male-dominated industry. This edition contains an extra chapter and interviews covering trends such as Girlpower.
