League activism and class politics -- Mothering the world : the making of a gendered internationalism -- The quiet citizen silenced : the failure of political centrism, 1936-39 -- Democratising foreign policy between the wars. |
| Sommario/riassunto | In the decades following Europe's first total war, millions of British men and women looked to the League of Nations as the symbol and guardian of a new world order based on international co-operation. Founded in 1919 to preserve peace between its member-states, the League inspired a rich, participatory culture of political protest, popular education and civic ritual which found expression through the establishment of voluntary societies in dozens of countries across Europe and beyond. Embodied in the hugely popular League of Nations |

Union, this pro-League movement touched Britain in profound
