A Comparative Briefing Paper; Chapter 8 The Politics of Curriculum Innovation; Chapter 9 Towards Pluralism and Democracy: The Administration of an Inner City School; Chapter 10 Public Examinations and the Structuring of Inequality: A Case Study; Chapter 11 Illiteracy, Improper Literacy and the Development of an Underclass; Chapter 12 Towards an Alternative

Sommario/riassunto	The editors have compiled this critical and comparative study of changes which took place in the New Zealand education system in the second half of the twentieth century. For other Western societies who have felt the impact of New Right policies the New Zealand case is interesting because it provides some indication of how policies of decentralization in education might be used to develop egalitarian and democratic educational policies. In recent years there have been major changes to educational systems in the Western world. Often these changes have been justified by reference to su

Sommario/riassunto

"In this engaging and inspiring work, John Bisney and J.L. Pickering have written and illustrated a thorough history of John F. Kennedy's role in developing the United States' space program. Ironically, despite his close association with the race to space, Kennedy initially thought the space program was too expensive and did not support a manned space flight until the Russians sent Yuri Gagarin into orbit just a few months after Kennedy's inauguration. Now, a century after Kennedy's birth, the United States has reached the moon, sent probes into deep space, and had its astronauts spend extended time in space, all of which are a legacy of Kennedy's presidency. Surprising, though, there hasn't been a photographic history of Kennedy's involvement in the space race despite the visual glamour associated with the space race and Kennedy's presidency until this engaging book by two widely respected chroniclers of the race to space"--
