

1. Record Nr.	UNINA9910814611203321
Autore	Bruck M. T (Mary T.)
Titolo	Agnes Mary Clerke and the rise of astrophysics // M.T. Bruck
Pubbl/distr/stampa	Cambridge ; ; New York, : Cambridge University Press, 2002
ISBN	1-107-12478-6 0-511-01999-8 1-280-43371-X 9786610433711 0-511-17645-7 0-511-15727-4 0-511-32957-1 0-511-53652-6 0-511-04467-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (x, 275 pages) : digital, PDF file(s)
Disciplina	520/.92 B
Soggetti	Astronomers - Ireland Astronomy - History - 19th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 269-270) and index.
Nota di contenuto	Family background in County Cork -- Ireland and Italy -- London, the literary scene -- The History of astronomy -- A circle of astronomers -- A visit to South Africa -- The System of the stars -- Social life in scientific circles -- Homer, the Herschels and a revised History -- The opinion moulder -- Popularisation, cryogenics and evolution -- Problems in astrophysics -- Women in astronomy in Britain in Agnes Clerke's time -- Revised System of the stars -- Cosmogonies, cosmology and nature's spiritual clues -- Last days and retrospect.
Sommario/riassunto	Born in Ireland in the mid-nineteenth century, Agnes Mary Clerke achieved fame as the author of A History of Astronomy during the Nineteenth Century. Through her quarter-century career, she became the leading commentator on astronomy and astrophysics in the English-speaking world. The biography of Agnes Clerke describes the

life and work of this extraordinary woman. It also chronicles the development of astronomy in the last decades of pre-Einstein science, and introduces many of the great figures in astronomy of that age including Huggins, Lockyer, Holden and Pickering; their achievements and their rivalries. The story follows her friendship with William and Margaret Huggins, and her prolific correspondence with eminent astronomers of the time. This biography will fascinate scientists, and anyone who admires intellectual achievement brought about through love of learning and sheer hard work.
