

1. Record Nr.	UNINA9910814674203321
Autore	Martin William E (William Eugene), <1948->
Titolo	Quantitative and statistical research methods : from hypothesis to results // William E. Martin, Krista D. Bridgmon
Pubbl/distr/stampa	San Francisco, : Jossey-Bass, 2012
ISBN	9786613770004 1-280-99839-3 1-118-23457-X 1-118-22075-7
Edizione	[1st ed.]
Descrizione fisica	xviii, 476 p. : ill. (some col.)
Collana	Research methods for the social sciences ; ; 42
Classificazione	301.6 140.7 417 150.72/7
Altri autori (Persone)	Bridgmon Krista D. <1979->
Disciplina	150.72/7
Soggetti	Psychology - Methodology Social sciences - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes bibliographical references (p. [461]-464) and index
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Quantitative and Statistical Research Methods offers a guide for psychology, counseling, and education students in the use of statistics and research designs, combined with guidance on using SPSS in the course of their research. Each chapter covers a research problem, taking the student through identifying research questions and hypotheses; identifying, classifying, and operationally defining the study variables; choosing appropriate research designs; conducting power analysis; choosing an appropriate statistic for the problem; using a data set; conducting data screening and analyses (SPSS); interpreting the statistics; and writing the results related to the problem. Designed so students will know how to plan research and conduct statistical analyses using several different procedures"--
