Sommario/riassunto

This book presents a data-driven message that exposes the cyberwar media campaign being directed by the Pentagon and its patronage networks. By demonstrating that the American public is being coerced by a threat that has been blown out of proportion-much like the run-up to the Gulf War or the global war on terror-this book discusses how the notion of cyberwar instills a crisis mentality that discourages formal risk assessment, making the public anxious and hence susceptible to ill-conceived solutions. With content that challenges conventional no
