

1. Record Nr.	UNINA9910814738303321
Titolo	Congenital and other related infectious diseases of the newborn // editor: Isa K. Mushahwar
Pubbl/distr/stampa	Amsterdam ; ; London, : Elsevier, 2007
ISBN	1-280-70785-2 9786610707850 0-08-046550-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (287 pages) : illustrations
Collana	Perspectives in medical virology, , 0168-7069 ; ; v. 13
Disciplina	616.043
Soggetti	Communicable diseases in pregnancy Neonatal infections Fetus - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Congenital and Other Related Infectious Diseases of the Newborn; Copyright Page; Dedication; Contents; List of Contributors; Preface; Diagnosis of Maternal and Congenital Cytomegalovirus Infection; Herpes Simplex Virus Infections of the Newborn; Epidemiology of Herpes Viruses 6 and 7 in Children; Varicella-Zoster Virus Infections during Pregnancy; Human Immunodeficiency Viruses: Molecular Virology, Pathogenesis, Diagnosis and Treatment; Mother-to-Child Transmission of Human Immunodeficiency Virus Type 1; Hepatitis B Virus and Hepatitis C Virus: Molecular Biology and Diagnosis Perinatal Hepatitis B Virus Infection in Japan; Hepatitis C in Pregnancy and Mother-to-Infant Transmission of HCV; Human Parvovirus B19: Molecular Virology, Clinical Features, Prevalence, Diagnosis and Control; Rubella Virus: Molecular Composition, Pathogenesis, Diagnosis, and Control; Congenital Chagas Disease; Color Section; Index
Sommario/riassunto	This book is directed toward the molecular composition, pathogenesis, diagnosis, treatment and control of congenital and other related diseases of the newborn that are caused by a variety of viruses. These viruses comprise several families that include Herpesviridae (HSV-1,

HSV-2, HSV-6, HSV-7, CMV and varicella-zoster); Parvoviridae (parvovirus B19); Lentiviridae (HIV); Hepadnaviridae (HBV); Flaviviridae (HCV); and Togaviridae (RV).
