1.	Record Nr.	UNINA9910814748903321
	Autore	Dixon Rod
	Titolo	Open source software law / / Rod Dixon
	Pubbl/distr/stampa	Boston, : Artech House, c2004
	ISBN	1-58053-720-0
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (303 p.)
	Collana	Artech House telecommunications library
	Disciplina	346.04/82
	Soggetti	Copyright - Computer programs - United States Open source software - Law and legislation - United States Free computer software - Law and legislation - United States Computer software industry - Licenses - United States
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Open source doftware -- Free software and the GNU GPL -- Drafting open source licenses -- About protecting property -- Electronic contract formation -- Commercial models and open source -- Rolling your own open source license.
	Sommario/riassunto	"Open Source Software Law explores the formal and legal aspects of two revolutionary views of software development and distribution: that software should be offered to users with open access to the source code and that end users should be freely able to modify, copy, or redistribute the software they have legally acquired. The book examines an innovative legal response to the conflict between copyright law and digital technology, and includes an analysis of the legal regime that an increasing number of software developers have come to prefer when developing and distributing software on-line."--Jacket.
