

1. Record Nr.	UNINA9910814783703321
Autore	Sibley L. David
Titolo	Evolution of virulence in eukaryotic microbes // edited by L. David Sibley, Barbara J. Howlett, Joseph Heitman
Pubbl/distr/stampa	Hoboken, N.J., : Wiley-Blackwell, 2012
ISBN	1-118-30816-6 1-280-69949-3 9786613676474 1-118-30814-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (624 p.)
Classificazione	SCI027000
Altri autori (Persone)	SibleyL. David HowlettBarbara J HeitmanJoseph
Disciplina	579
Soggetti	Protista Eukaryotic cells Microbial genomics Virulence (Microbiology) - Genetic aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. General overviews -- pt. 2. Population genetics and evolutionary approaches -- pt. 3. Forward and reverse genetic systems for defining virulence -- pt. 4. Comparative "omics" approaches to defining virulence.
Sommario/riassunto	"Combines advances in understanding virulence and evolution in three distinct fields; oomycetes, fungi and protozoan parasites - The first book to synthesizes advances in functional and comparative genomics represented in primary scientific literature for this topic. - Summarizes genetic tools in a diverse set of pathogenic organisms"--
