Sommario/riassunto

Narrating Objects, Collecting Stories is a wide-ranging collection of essays exploring the stories that can be told about objects and those who choose to collect them. Examining objects and collecting in different historical, social and institutional contexts, an international, interdisciplinary group of authors consider the meanings and values with which objects are imputed and the processes and implications of collecting. This includes considering the entanglement of objects and collectors alike in webs of social relations, the creation of value and social change; object biograph
