Sommario/riassunto	This volume provides specialized insights into selected Mediterranean geographies, such as info-communication technologies, tourism, urbanization and climate change threats, with a focus on emerging and often overlooked issues, in light of the impact of current trends of globalization and the financial 'crisis', in the broader context of contemporary world processes of environmental change and accelerated human mobility. Specifically, the book contains sections on emergent and increasingly significant or highly innovative issues specific to the Mediterranean, often providing alternative perspec
