   Sommario/riassunto This book offers a new perspective on the management of schools by bringing together the knowledge and understanding of school

effectiveness and community education. Tony Townsend argues that the core activity of the school, to provide a learning environment for children, should be supplemented by educational activities that service the needs of the community as a whole. He offers a model for the development of the `core-plus' school, including practical ideas for school leaders to build strategies for improving school programme possibilities and processes to encourage greater community involve
