Sommario/riassunto

Neuroscience is one of the scientific fields where progress in the 20th century has been spectacular. With the coming of the new millennium, it is appropriate to look at some of the advances and the neurologists who helped to produce them. The original contributions in this volume reflect the background against which the rapid advances have taken place in the past 100 years. <i>Sample Chapter(s)</i><br>Chapter 1: SIR CHARLES SHERRINGTON, O.
