Vertical enrichment of rhyme-elements -- Abbreviations: bodies of poetry; rhyme types studied; others -- Frequently cited works of scholarship; poetry editions used -- Glossary -- Complete indexes of poetry -- Indexes.
Sommario/riassunto	This book represents the culmination of Professor J. Thomas Shaw's decades-long study of the rhymes of Aleksandr Puskin, using the rhymes of Batjuskov and Baratynskij as controls. There is much in this book that has been treated in some form in Professor Shaw's previously published works, but the vast majority of what appears here is new material that he had been compiling over many years.
