

1. Record Nr.	UNINA9910815159103321
Autore	Jorgensen Sven Erik <1934, >
Titolo	Handbook of inland aquatic ecosystem management // Sven Jorgensen, Jose Galizia Tundisi, Takako Matsumura Tundisi
Pubbl/distr/stampa	Boca Raton : , : CRC Press, , 2013
ISBN	1-000-68786-4 0-429-18939-7 1-4398-4526-3
Descrizione fisica	1 online resource (427 p.)
Collana	Applied ecology and environmental management
Altri autori (Persone)	TundisiJ. G TundisiTakako Matsumura
Disciplina	577.63
Soggetti	Freshwater ecology Wetland ecology Ecosystem management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. I. Limnology and ecology of inland waters -- Overview of Inland Aquatic Ecosystems and Their General Characteristics. -- Lakes and Reservoirs as Ecosystems. -- Physical Processes and Circulation in Lakes and Reservoirs. -- Rivers as Ecosystems. Estuaries and Coastal Lagoons as Ecosystems. -- Wetlands. Tropical Freshwater Ecosystems. -- Freshwater Temperate Lakes and Reservoirs. -- Application of the Conservation Principles. -- Application of Aquatic Chemistry in Environmental Management I: Calculations of Equilibria. -- Application of Aquatic Chemistry in Environmental Management II: Equilibrium Calculations of the Four Types of Reactions. -- Future of Limnology and Aquatic Ecology as a Tool for Management of Inland Waters. -- pt. II. Holistic, environmental and ecological management -- Impacts on Watersheds and Inland Aquatic Ecosystems. -- Integrated Ecological and Environmental Management. -- Application of Environmental Technology in the Environmental and Ecological Management. -- Application of Cleaner Technology in Environmental and Ecological Management. -- Application of Ecotechnology in Ecosystem Management of Inland Waters. -- Application of Ecological Indicators in

Environmental Management of Freshwater Ecosystems. -- Application of Ecological Models in Management of Aquatic Inland Ecosystems.

Sommario/riassunto

Combining background knowledge and practical tools, Handbook of Inland Aquatic Ecosystem Management gives you an overview of how to manage inland waters in a holistic manner. It examines the problems that threaten aquatic inland water ecosystems and presents a set of toolboxes for solving them. The book focuses on lakes, reservoirs, ponds, rivers, wetlands, lagoons, and estuaries, including the predominant freshwater ecosystems as well as saline and brackish ecosystems.
