Sommario/riassunto	""This is a must-read book for clinicians, service providers, policy makers, program planners, and teachers in the fields of mental health, aging, and emergency preparedness."" -- Robert N. Butler, MD (From the Foreword). This book provides a comprehensive overview of the essential information that everyone working, or hoping to work in the field of aging, should know about disasters, emergencies, and their effects on the mental health and well-being of older persons. It provides the reader with evidence-based approaches for identifying

and classifying mental health problems, such as Post-Tra
