Sommario/riassunto	There has been increased interest in the relationship between religion, identity and politics in modern societies. Building on this debate, Claire Mitchell presents a challenging analysis of religion in contemporary Northern Ireland, arguing that religion is not merely a marker of ethnicity and that it continues to provide many of the meanings of identity, community and politics. Drawing on a range of unique interview material, this book traces how individuals and groups in Northern Ireland have absorbed religious types of cultural knowledge, belonging and morality.
