packages and bailouts; Crisis management: austerity measures; The return to a regulated market system; Structural-institutional changes in the European Union; Future alternatives for the European Union and the euro-zone; Notes; Index

Sommario/riassunto

This book analyzes the European Great Recession of 2008-12, its economic and social causes, its historical roots, and the policies adopted by the European Union to find a way out of it. It contains explicit debates with several economists and analysts on some of the most controversial questions about the causes of the crisis and the policies applied by the European Union. It presents the cases of Iceland, Greece and Ireland, the countries that first declined into crisis in Europe, each of them in a different way. Iceland is a case study for reckless banking practices, Greece of
